Don suggest they all walk over the soap box building and legion building to see what needs to be done to both- everyone walked over.

Tim U. asked about the sand bags that the soap box fills from the volley ball court; they usually just dump them back when they are done. Marty suggested that they leave them bagged and the Village will empty the bags at the north ball field and trail. Marty to get price on volley ball sand.

Randy brought up about the turn around for canoes at the take out. Everyone walked over and it was decided where the one tree needs to be removed and a driveway cut out. It was measured out and marked. 255 feet total drive 10ft at turnaround, 50ft wide e to w, semi circle 25ft wide n to south. It will take approximately 55 yards of driveway material. Randy to speak to Camp Hi and Marty to let the V.A. know there plans. All yeas
