Landmark Committee

Mayor stated that the Landmark committee is down 3 members. It was asked at Council for planning to review and make a change to allow a Council member sit on the committee. Mayor Clark asked Michele to explain her research. Because a Council person is an elected official and that they oversee the committee you can't be on both. Randy stated he was not in favor of making any changes, Bob agreed and said that we can't just start changing rules and regulations, just because a Council person asked. Ben said that we don't have to do anything and it stays the way it is. Mayor Clark said she is not in favor of making any changes, unless we might want to consider reducing the number to 5 instead of 7 or make a recommendation to disband that committee. All agreed not to change anything on the Legislation for the Landmark Committee.
