

Service Meeting

April 07, 2015

Service Chair John Clark called the meeting to order at 6:05 p.m.

Members present: John Clark, Paul Janson, Bill Zoller

Others present: Mayor Linda Clark

Motion to excuse Kate Rogers V.A. by John second by Paul all yeas

No minutes available to approve from March

New Business

High Street Bridge: Chair asked Mayor to update them. Mayor Clark said she spoke with Anthony Zumba from the PC Engineers office. She had been to breakfast meeting with Anthony and the County Engineer Mickey M. When she asked when the bridge would be started she was informed not until 2016. Since then the Mayor has talked with A. Zumba to see what could be done. The county has lowered the bridge weight to 3 ton and passenger vehicles only. Paul suggested plating the bridge if the structure was sound. Bill suggested putting stop signs at both ends and make it a one lane bridge, until it could be replaced. John brought up about our own service vehicles- none of them can cross the bridge. It was suggested that we move the back hoe and plow trucks to the sewer plant. Bill said that F&S has offered space in there fenced in lot for our vehicles. Mayor asked what about salt come winter.

The Mayor is going to contact Anthony about our suggestions. And report back. The Mayor also said she was going to write letters to both County and ODOT regarding our feelings on the bridge project getting pushed back.

John asked what the status was on the Second St vacation. Mayor said unknown and would contact CT.

John asked the Mayor to explain what was going on with the bidding for recycling. The Mayor explained that Michele has the paper work ready, but we needed a customer list/count for the bidders. Mayor Clark she contacted Bill Steiner and the County emailed over a customer list. The list is so incomplete that Michele and the Mayor feel we should assist the county in getting a more complete list and have them bill the residents at list one quarter before we do the bidding process. Let the county make those who have never been billed angry not us.

John brought up about the discussion we have had with the county regarding Water and Sewer plants. Exactly, what are our must haves (see attached sheet).

John asked how Michele's research was going. The Mayor said that Michele had been in contact with Jeff who put her in contact with a John Rauch RCAP. This is in regards to do we have to bid out the sale and or lease of the facilities. Mayor said that Michele had not gotten back to her before the meeting. But, will have the information for us at Council.
